EDUCATION

2023 - 2027 B.Tech. in Computer Science Engineering, **SRM University, Andhra Pradesh**
Cumulative GPA: 8.46/10 (Till 3rd Semester)
Latest Semester GPA: 8.67/10

SKILLS

Programming Languages: Python, C, C++, JavaScript, PHP, HTML, CSS
Technologies/Tools: Git, GitHub
Databases: MySQL

PROJECTS

Multilingual Translator App | Python | Tkinter

Developed a GUI-based translator application using Python's Tkinter library that supports multiple languages. Integrated translation API to support dynamic real-time translation, making the tool accessible and user-friendly.

MediQR: Decentralized Medicine Authentication | Blockchain | DApp

Built a decentralized application to verify the authenticity of medicines using QR codes and blockchain. Helps reduce counterfeit medicine distribution through transparent verification and decentralized data validation.

Online Bank Secured with Zero Trust Architecture | Azure | Cybersecurity

Currently developing a secure online banking platform hosted on Microsoft Azure cloud. Applying Zero Trust Architecture principles including identity verification, least privilege access, and micro-segmentation.

WORK EXPERIENCE

Next Tech Lab AP | Associate, Cybersecurity

Jan 2024 – Present

Actively contributing to cybersecurity research and product development. Engaged in real-world projects including secure architecture design, threat modeling, and decentralized security applications.

EXTRA-CURRICULAR ACTIVITIES

- Contributor at campus-level tech communities and workshops.
- Volunteered in organizing coding bootcamps and cybersecurity awareness sessions.
