EXPERIENCE

Sanjay Ghodawat Group

Oct. 2025 – Jan. 2026

Project Intern — Learning & Development / GCC Division

Remote

- Contributed structured content and workflow improvements to the official L&D and GCC website, improving clarity and accessibility of training resources across departments.
- Collaborated with cross-functional stakeholders to gather requirements, document changes, and deliver updates on schedule — directly applicable to Agile sprint workflows.

PROJECTS

TaskFlow | TypeScript, React, Supabase

- Built a task management SaaS application to track the workflow of interns. serving with real-time updates, a commenting system, and file attachments. [Github](#).
- Implemented **three-tier RBAC** (Admin, Manager, Employee) via Supabase authentication and Row Level Security.

Coco's Playground | JavaScript, React, Node.js, Socket.io

- Developed a real-time collaborative code editor for pair programming; integrated Socket.io for bidirectional communication enabling seamless **live code synchronisation** across multiple clients.
- Containerised the Node.js backend and React frontend with Docker Compose. [Github](#).

SAHAY - AI Companion for Elderly Safety | Kotlin, Jetpack Compose, Node.js, ML Kit

HackSRM 7.0

- Built a full Android app replacing the default launcher with an elder-first UI - large buttons, high contrast, voice-powered navigation - targeting senior citizens in India struggling with smartphones.
- Engineered **Genie**, a voice AI assistant using Android SpeechRecognizer + custom intent parser to perform actions (calls, food orders, cab bookings) entirely through natural speech with an AccessibilityService for deep app automation.
- Implemented a **passive safety system**: 24/7 inactivity monitoring via accelerometer/gyroscope, automatic SOS alerts with live GPS sent via call, SMS, and WhatsApp when no activity is detected for 6 hours or a fall is detected.
- Integrated a **decentralized medical storage backend** (Node.js + Express + DataHaven) for tamper-proof prescription uploads; used ML Kit OCR for camera-based prescription scanning; [Github](#).

EDUCATION

SRM University, Andhra Pradesh

Aug. 2023 – May 2027

B.Tech. in Computer Science Engineering

Andhra Pradesh, India

- **CGPA**: 8.75/10 (through 5th semester) **Latest Semester GPA**: 9.115/10
- **Achievement**: 2nd place — Code for Connection Hackathon, Coding Club SRMAP.
- **Certification**: Oracle Certified Java SE 17 Developer (1Z0-829).

SKILLS

Languages : Python, JavaScript (ES6+), C++, PHP, HTML5, CSS3, Java (learning)

DevOps & Cloud : Docker, Docker Compose, AWS (EC2, S3, IAM), Linux/Unix, Shell scripting

Frameworks : React.js, Node.js, Express.js, Bootstrap

Databases & Tools : MySQL, Supabase, Firebase, Git, GitHub
